

### STREET ARTISTIC EXPRESSIONS: procedure to book spaces

We consider “street artistic expressions” all the activities referred to in the previous paragraph that do not involve a predetermined compensation for the performance and/or an admission ticket for the participation of the public without prejudice to the possibility of collecting free offers. Exclusively by way of example and by no way of limitation, falling under this phenomenology are the activities of: acrobats; jugglers; equilibrists; contortionists; ballad-singers; street actors; clowns; living statues; mime artists; fakirs; fire-eaters; puppeteers; dancers; musicians; one-man bands; street-bands; pavement-artists; dream painters (art. 5 paragraph 2 of the Rules and regulations for Street Art).

The artists belonging to this category are not subject to the payment of the COSAP (*Fee for the Occupation of Public Spaces and Areas*) (art.8 paragraph 1 of the Regulation).

The artist connects to the platform through the URL (*Uniform Resource Locator*) [www.stradarte.it](http://www.stradarte.it) , accessible also from the Municipality of Milan portal <https://www.comune.milano.it/aree-tematiche/lavoro-e-formazione/lavoro/l-arte-di-strada-a-milano> or he/she can go directly to the Street Artists Counter.

### AVAILABLE AREAS FOR ARTISTIC EXPRESSIONS (art. 7 of the Regulation)

- “areas allowing free performance”, without any requirement or limitation concerning specific artistic typologies, without prejudice to diversifications for time bands;
- “areas where amplification is prohibited”, unavailable for activities requiring the use of any kind of amplification;
- “routes for itinerant performances” available for events that take place in an itinerant form, that do not occupy public ground even temporarily, that only make sporadic stops in observance of the performance mode defined in the following art. 9;
- “areas reserved for the expressive activity” in which only the activities defined in the second paragraph of art. 5 are allowed;
- [areas reserved for street artist crafts]
- “areas of special public interest” that, because of their particular environmental importance, can be subject to specific requirements, limitations or extensions, whether these are sporadic or periodic, and even frequent;
- “areas of extemporary expression” in which the expressive activities referred to in the second paragraph of art. 5 can be exercised without any booking of space. These areas cannot be used to exercise street artistic crafts as defined in paragraph three of art. 5 of the Regulation.

Bookings for street artistic expressions:

Bookings of spaces can be made at the Street Artists' Counter and online through the Stradarte platform and they are valid only within the territory of the Municipality of Milan.

To facilitate booking, the Stradarte platform proposes the list of positions with their localization and photographic documentation. The artist is exclusively presented with the positions that are compatible with the type of activity that he/she proposes and that appear in the Declaration of Artistic Activity already inserted in the system.

In order to carry out his/her artistic performances, each individual artist can book the positions for a period that can vary from a minimum of 1 to a maximum of 4 consecutive days. These activities can be exercised in the same place for a period of time of not more than 2 consecutive hours, with the exception of pavement-artists\*, and in any case not more than 4 times in a month in the same position. Bookings can be made up to 60 days before the beginning of the activity. It is not possible to book more than one position at the same hours.

(\*The pavement-artists can book the same position for the entire day.)

Positions are available according to the following time frames:

11:00 a.m.-01:00 p.m., 02:00 p.m. -04:00 p.m. , 05:00 p.m. -07:00 p.m. , 08:00 p.m.-10:00 p.m., 11:00 p.m.-12:00 p.m.

Subject to some limitations (for instance in public parks subject to gates opening and closing hours) we specify that the time limit for musical performances is 10:00 p.m.

The artist may cancel or modify the shifts of the single day up to the day before the performance. This condition is valid for all the dates forming the booking. Likewise, it is not possible to postpone the closing date of the performance. As regards central positions, placed in the area Duomo – Castello and Nuova Darsena, it will only be possible to make two bookings per day: one on the axis San Babila Duomo and one on the axis Mercanti – Castello and Nuova Darsena.

Subsequent bookings can be renewed only upon the expiry of the current authorization.

IMPORTANT: The municipal administration reserves the right to change, cancel or suspend at any time the booking of the urban space made by the user, with a prior notice to the persons concerned. Within the limits of the availability of alternative positions, another location for the activity for the time slots affected by the change can be agreed upon with the artist / the company.

In particular conditions of need and urgency, or for the presence of events and particular occurrences, with a resolution of the City Council or of the individual Municipal Councils, the Administration can at any time modify and/or limit temporarily the general conditions of the performance of street art activities.

In order to perform in the street it is necessary to have a permit that can be printed or downloaded in PDF format on mobile devices and that will have to be compulsorily presented to the Local Police, upon request.

The permit can be printed in a final global form or in a partial form, allowing the holder to cancel the individual bookings up to the day before the performance.

## STREET ART CRAFTS: Space booking procedures

We consider “street art crafts” the activities listed in the first paragraph, aimed at the production and sale to the public of expressive works that are the result of the creative talent of those that propose them and/or the offer of extemporary artistic and expressive performances for which a specific compensation is requested. Falling under this second category are for example: painters, sculptors, portraitists, photographers, sculptors of balloons, make-up artists (art. 5 paragraph 3 of the new Rules and Regulations governing Street Art). This typology includes esoteric artists (astrologers, fortune-tellers, etc.).

These categories are subject to the payment of the COSAP (art.8 paragraph 2). The multiplier coefficient established is 0.2% (the minimum for the category of initiatives of civic interest identified by the City Council). Payment is required in cases where the occupation of public soil exceeds half a square or linear metre, where the equipment used clutters public space and/or where fixed emplacements are used. The occupation of public soil produced by these activities is temporary.
